

Stuff Made in Maine is a recruitment tool for Maine manufacturers to highlight the employment opportunities they offer both entry-level and experienced workers to develop a successful career with their company. And, it's a great resource for educators and students to find out about the diverse career opportunities that the manufacturing sector has to offer in Maine.

Mainebiz's goal is to help improve the image of the state's manufacturers and develop their workforce with **Stuff Made in Maine** – a special publication that gives manufacturers an engaging format to tell their story and showcase what they make right here in Maine.

MANUFACTURER PROFILES

Manufacturers can participate in **Stuff Made in Maine** by purchasing a profile – one, two or four pages are available. Mainebiz will provide a writer/editor to help each company craft its profile. Profiles include:

- Company name and company logo
- Intro paragraph (75 words)
- Company Profile with address and contact info., number of employees, year founded, additional locations, president, and photo of president
- Briefs of 50 words each (your choice, as space allows)
 - Products
 - Markets/Customers
 - Career/job opportunities
 - Company Benefits
 - Internship program
 - Community engagement
 - Sustainability
- Employee profile (we recommend selecting a successful young worker to profile)
 - Photo
 - Up to 50 word quotation from employee
 - Nugget box with name, position, age, schooling, and years at company
